Welcome to our look book.

Spending time outdoors was always important to our family. In fact, it's the reason our father started building outdoor furniture on our farm and ultimately founded Casual Comfort in 2004.

Today, our artisans continue our family's tradition of crafting poly furniture that's beautiful, durable and low maintenance — and encourages people to enjoy the outdoors, whether for fun or quietude.

We offer unique collections for every taste and style, from simple to elegant...colorful to cozy. Whichever you choose, you'll always get a quality product and superior service — the hallmarks of Casual Comfort.

As you browse our Look Book, we hope you're inspired to create your own outside oasis. And don't forget — Enjoy Life Outdoors™.

CREATE YOUR BACKYARD OASIS

6 Reasons

to Enjoy Life Outdoors with Casual Comfort Furniture

Why buy Casual Comfort furniture?

Here are 6 reasons:

1

Sustainable Material

Poly lumber is an eco-friendly, recycled plastic product that's safe for daily use and safe for the environment. It's also fade-resistant and doesn't promote bacterial growth. All you need is a little soap and water to keep it spotless and beautiful.

2

Quality Craftsmanship

Our company and team of expert artisans are passionate about our craft. From using the best materials to making sure each furniture piece is clean and well-built, we stand behind the quality of our products 110%.

3

Designed Comfort

Your furniture should not only look good, it should feel good too. Our collections are designed for comfort and built with hidden fasteners that firmly hold the furniture together and keep all screws out of sight. This is a unique aesthetic feature that some other poly furniture manufacturers don't offer.

4

Fast Delivery

We know you want to enjoy your furniture as soon as possible. That's why we strive to achieve the best lead times in the industry. Once your order is received, our craftsmen get to work creating your beautiful pieces.

5

Superior Service

Casual Comfort customers are happy, faithful customers. We take great pride in our unparalleled customer service and quality, which is backed by a generous 5-year commercial/20-year residential warranty.

6

Made In The USA

All of our products are designed and manufactured with pride right here in the USA.

*Casual
Comfort*

Our durable poly lumber is fade-resistant and won't crack or rot — even in the hottest and coldest temperatures. And the hardware fasteners we use are made of chrome-plated stainless steel — the same strong material used in the marine industry. It resists corrosion better than typical grades of stainless steel, which is why Casual Comfort furniture is a popular choice for outdoor spaces where harsh saltwater conditions exist.

Post consumer milk bottles are collected from community recycling programs.

Baled milk bottles are sorted and items removed which would affect quality.

Bottles are then ground to flake size, washed, dried and repelletized.

Corrosion Resistance

If you live near salty sea air, relax. Your Casual Comfort furniture hardware can take nature's pounding. Our fasteners are chrome plated stainless steel. Used widely in the saltwater marine industry, these fasteners resist corrosion better than the typical grades of stainless steel.

Pellets are remelted and shaped into plastic lumber.

Recycled plastic lumber is fabricated into a variety of outdoor living products.

Wilderness Getaway

Getting away from our daily routines, pressures and stress is important for our wellbeing. For many that means a trip to the cabin or lake where we can slow down and reconnect with family and friends. It's places like these where some of our most lasting memories are made: like sharing the sunset with loved ones from a porch rocker, or teaching the kids to fish down at the lake.

Proper care & maintenance for your fine piece of poly furniture

Poly Furniture is made from High Density Polyethylene (HDPE), a recycled plastic that will never need to be painted or stained.

It will not rot or splinter, and it contains an added UV protective agent to resist fading. Poly furniture is not affected by most corrosive substances, and will not promote bacterial growth.

To maintain the beauty of your furniture, clean it regularly with soap and water. Use only nonabrasive soaps. Do not place flower pots or any items on furniture that will leave stains. Do not place hot items directly onto furniture to avoid melting. All hardware is stainless steel and virtually maintenance-free under normal conditions. However, in coastal areas, hardware will need regular rinsing with fresh water to eliminate rusting.

If you properly care for your fine piece of poly furniture, you will be able to relax in it for many years!
